

Interview AI Helper Visual Guide

Install it, set it up and use it, picture by picture.
Real screenshots. Follow the gold numbers.

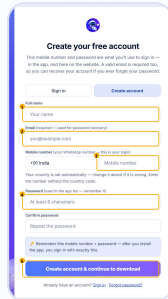

Version 3.1.3 · October 2026 · interviewaihelper.com · +91 87935 52726

Start here: 6 steps

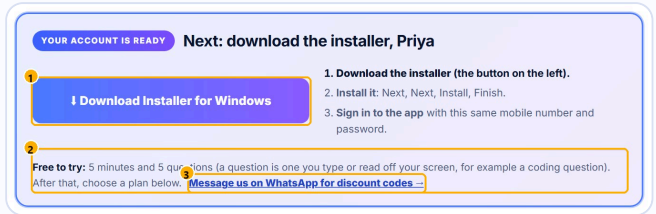

ABOUT 10 MINUTES, ONCE

Do these six steps once. After that, before each interview you only press **Start**. Each page shows the real screen, with gold numbers on the buttons to press.

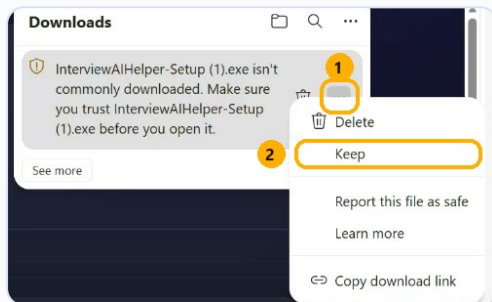

1 Create your account

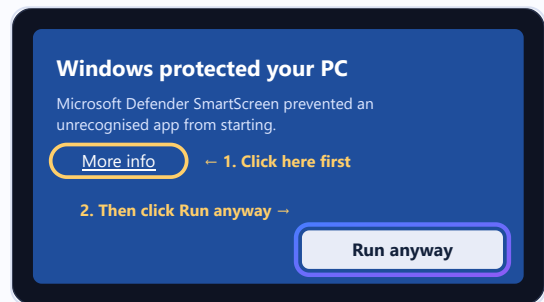

2 Download the installer

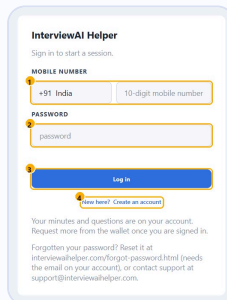

3 Keep the file

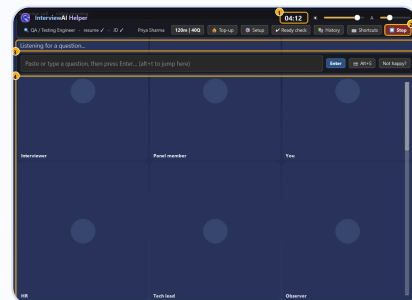

4 Run the installer

5 Sign in to the app

6 Set up and press Start

WHAT IT IS

Your account holds your name, your login and your free trial.

WHY WE DO IT

One mobile number and password sign you in on the website **and** in the app, so you only create it once.

Create your free account

This mobile number and password are what you'll use to sign in — in the app, and here on the website. A valid email is required too, so you can recover your account if you ever forget your password.

[Sign in](#)[Create account](#)**1** Full name**2** Email (required — used for password recovery)**3** Mobile number (your WhatsApp number — this is your login)

Your country is set automatically — change it above if it is wrong. Enter the number without the country code.

4 Password (used in the app too — remember it)**Confirm password**

🔑 Remember this mobile number + password — after you install the app, you sign in with exactly this.

5 [Create account & continue to download](#)

Already have an account? [Sign in](#) · [Forgot password?](#)

1 Your name**2** Your email**3** Your mobile number: this is your login**4** A password, typed twice**5** Press **Create account****ALREADY REGISTERED?**

Welcome back

Sign in with the mobile number and password you registered with.

[Sign in](#)[Create account](#)**1** Mobile number (your WhatsApp number)**2** Password**3**[Sign in](#)

New here? [Create an account](#) · [Forgot password?](#)

1 Mobile**2** Password**3** Sign in

2 Download the installer

WEBSITE

WHAT IT IS

The installer is the setup file that puts the app on your Windows PC.

WHY WE DO IT

The app runs on your computer, not in the browser, so it can hear the interviewer and show answers on top of your call.

YOUR ACCOUNT IS READY

Next: download the installer, Priya

1

↓ Download Installer for Windows

1. Download the installer (the button on the left).

2. Install it: Next, Next, Install, Finish.

3. Sign in to the app with this same mobile number and password.

2

Free to try: 5 minutes and 5 questions (a question is one you type or read off your screen, for example a coding question). After that, choose a plan below. **3** [Message us on WhatsApp for discount codes →](#)

1

Press **Download Installer**.
Your download starts.

2

You start free: **5 minutes + 5 questions**

3

Ask us on WhatsApp for **discount codes**

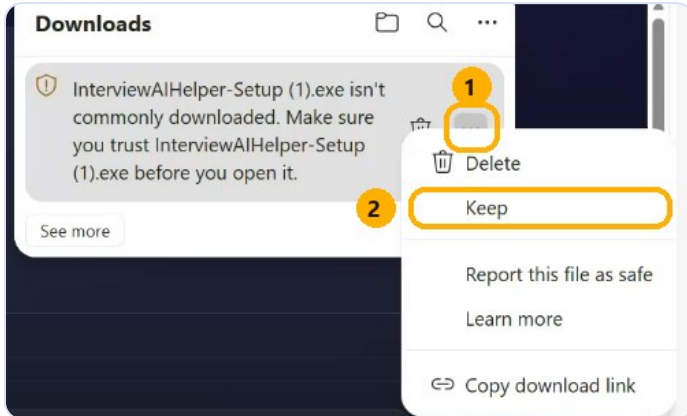

While it downloads, open the **plans** on our website and choose one. Prices change, so the current ones are always on interviewaihelper.com/pricing.html.

WHAT IT IS

Your browser warns about new files that few people have downloaded.

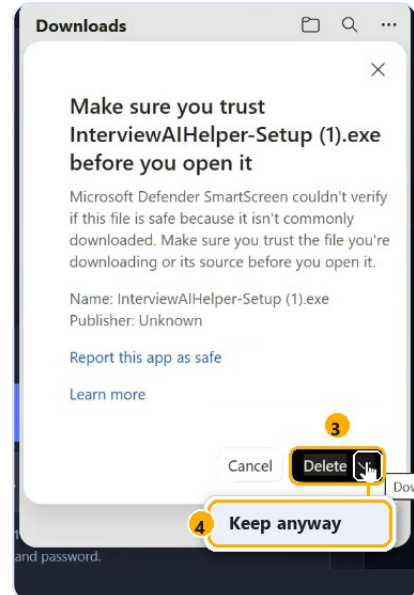

WHY WE DO IT

It is a normal warning for a new app. **Keep anyway** tells the browser you trust this file from our website.

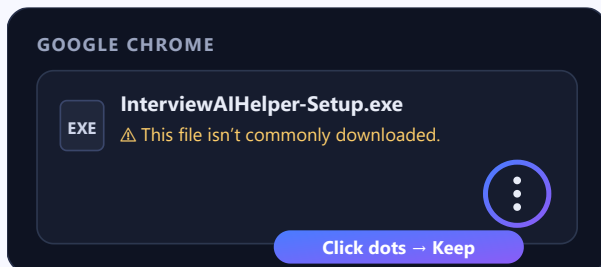

1 Click the **three dots**

2 Choose **Keep**

3 Click the **arrow to the right of Delete**

4 Choose **Keep anyway**

**Google Chrome**

Click the three dots, then **Keep**.

4 Run the installer

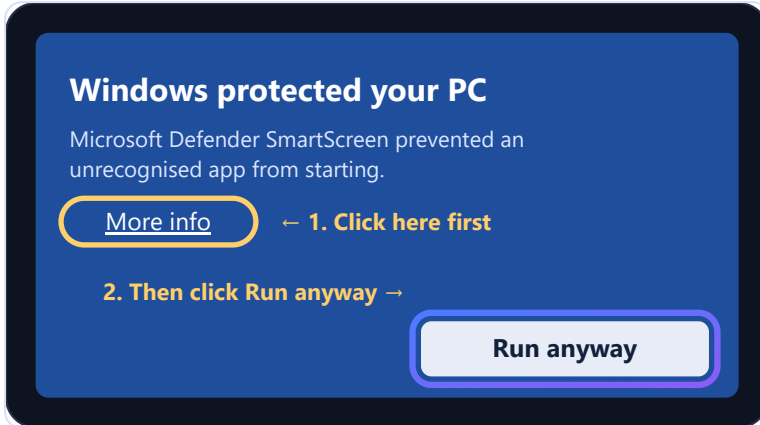

WINDOWS

WHAT IT IS

Windows checks new apps before it runs them.

WHY WE DO IT

Run anyway starts our setup. It installs just for you, so it never asks for an administrator password.

1 Windows says **Windows protected your PC**? Click **More info**

2 Click **Run anyway**

THEN THE INSTALLER

1 Next

2 Next

3 Next

4 Install

5 Finish

The app opens by itself.

The installer window is called **Setup - Sysconf Check**. That is our installer.

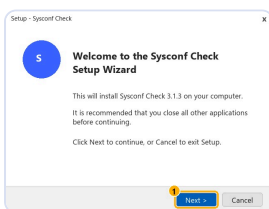

Can't find the file?

Press **Ctrl+J** in your browser.

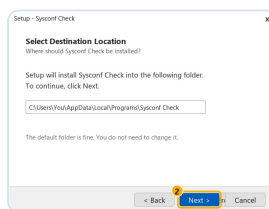

Won't open?

Right-click it, **Properties**, tick **Unblock**, OK.

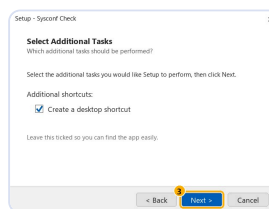

THE INSTALLER, PAGE BY PAGE (PRESS THE GOLD BUTTON ON EACH)

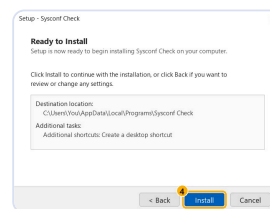

1 Welcome: Next

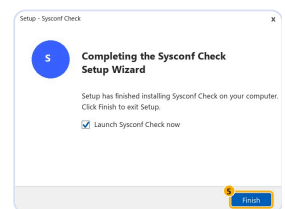

2 Folder: Next

3 Shortcut: Next

4 Ready: Install

5 Done: Finish

WHAT IT IS

The app asks who you are when it opens.

WHY WE DO IT

It loads your plan, your minutes and your settings from your account, so everything you set up is there.

InterviewAI Helper

Sign in to start a session.

MOBILE NUMBER

1

PASSWORD

2

3

4 [New here? Create an account](#)

Your minutes and questions are on your account. Request more from the wallet once you are signed in.

Forgotten your password? Reset it at interviewaihelper.com/forgot-password.html (needs the email on your account), or contact support at support@interviewaihelper.com.

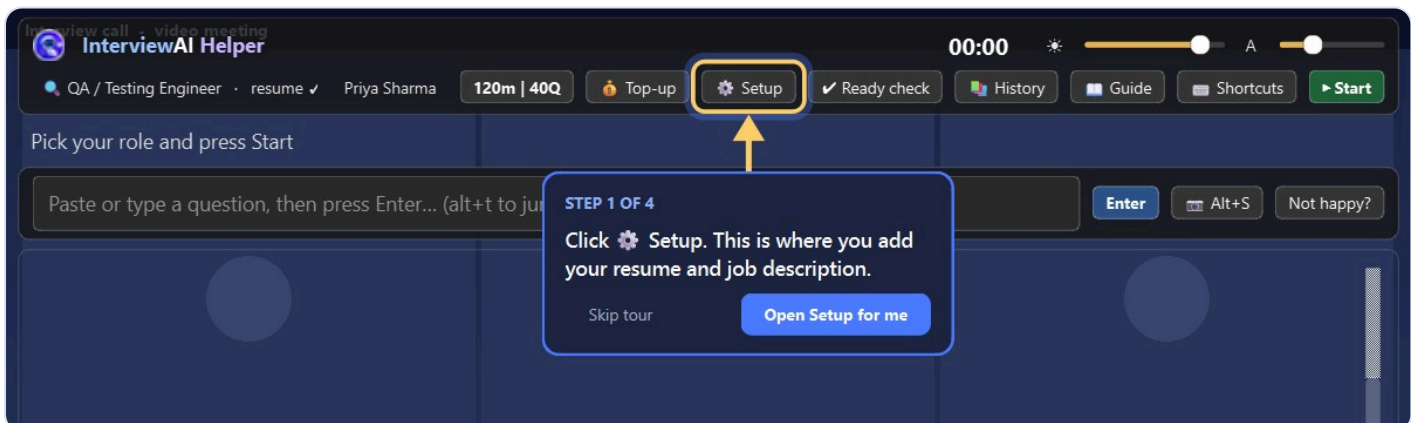

1 Country code and your **mobile number**

2 Your **password**

3 Press **Log in**

4 No account yet? **Create an account**

Use the **same** number and password as on the website.

THEN THE TOUR STARTS BY ITSELF

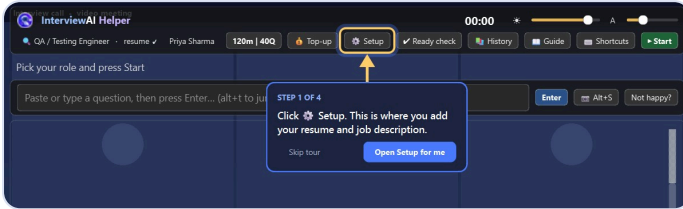

Follow the glowing arrow. **Next** goes to the next button.

WHAT IT IS

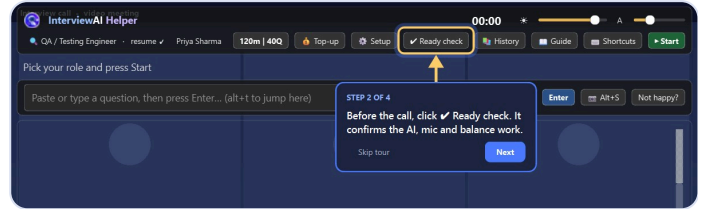

A short tour that points a glowing arrow at each button.

WHY WE DO IT

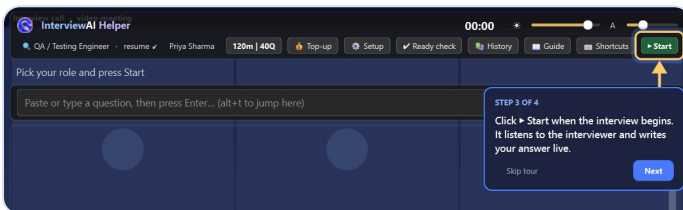

Learn the main buttons once, in a minute, so you are not searching for them in the middle of an interview.

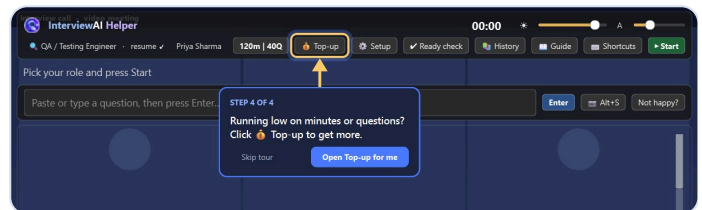

1 Setup: add your resume

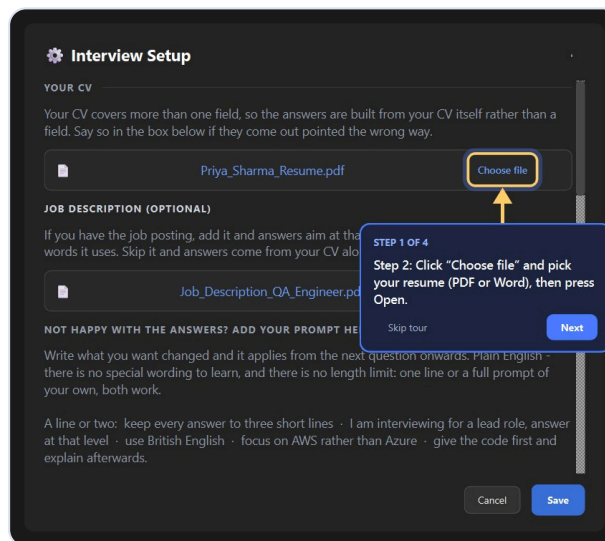

2 Ready check: before the call

3 Start: when the interview begins

4 Top-up: add minutes

The tour then points inside Setup

Press **Next** to continue. Replay it any time with the **Guide** button.

WHAT IT IS

Setup is where you give the app your resume, the job description and your own prompt.

WHY WE DO IT

So the answers use **your real experience**, aim at the **job you want**, and sound the way **you speak**.

Interview Setup

YOUR CV

Your CV covers more than one field, so the answers are built from your CV itself rather than a field. Say so in the box below if they come out pointed the wrong way.

1 Choose file

JOB DESCRIPTION (OPTIONAL)

If you have the job posting, add it and answers aim at that role - its stack, its seniority, the words it uses. Skip it and answers come from your CV alone, which works perfectly well.

2 Choose file

3 **NOT HAPPY WITH THE ANSWERS? ADD YOUR PROMPT HERE**

Write what you want changed and it applies from the next question onwards. Plain English - there is no special wording to learn, and there is no length limit: one line or a full prompt of your own, both work.

A line or two: keep every answer to three short lines · I am interviewing for a lead role, answer at that level · use British English · focus on AWS rather than Azure · give the code first and explain afterwards.

4 Cancel Save

Interview Setup

CODING LANGUAGE

1 Automatic - from my resume

Coding answers are written in this language (Automatic uses the main language on your resume). A language shown on the screen or asked for out loud always wins for that one question.

ANSWER STYLE

FORMAT

2 Natural spoken answer

LENGTH

3 Auto (recommended)

Bullet points and length apply to every answer, in every domain - handy if you'd rather glance at a few short points than read full sentences.

Answers are drawn from your resume for "tell me about yourself" and aimed at the job description everywhere else.

4 Cancel Save

1 Choose your **resume**

2 Add the **job description** (optional)

3 Type **your prompt**

4 Press **Save**

1 **Coding language:** Automatic is fine

2 **Format:** spoken or bullets

3 **Length:** Auto

4 Press **Save**

Prompt ideas: "Keep every answer to 3 short lines." · "Give the code first." · "I am interviewing for a lead role."

WHAT IT IS

Ready check tests your audio, your plan and the answer service. **Start** begins listening.

WHY WE DO IT

Find any problem **before** the interview, not during it. While it runs, the timer shows the minutes you are using.

Everything is ready

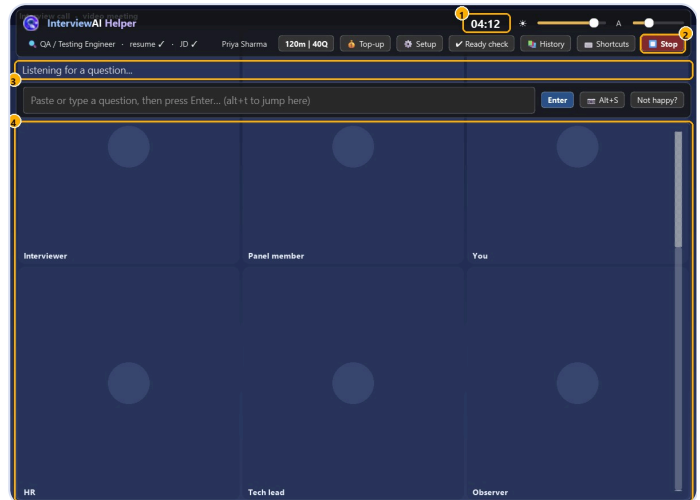

Checked now, so nothing surprises you mid-interview.

- ✓ **Meeting audio** — Speakers found
- ✓ **Your plan** — 120 minutes left
- ✓ **Answers** — Ready
- ✓ **Voice** — Ready
- ✓ **Screen reading** — Ready

Got it

1 Press **Ready check** before the call

2 All green ticks? You are ready

1 The **timer** runs

2 Press **Stop** to pause

3 The **status** tells you what it is doing

4 **Read the answer.** Say it in your words

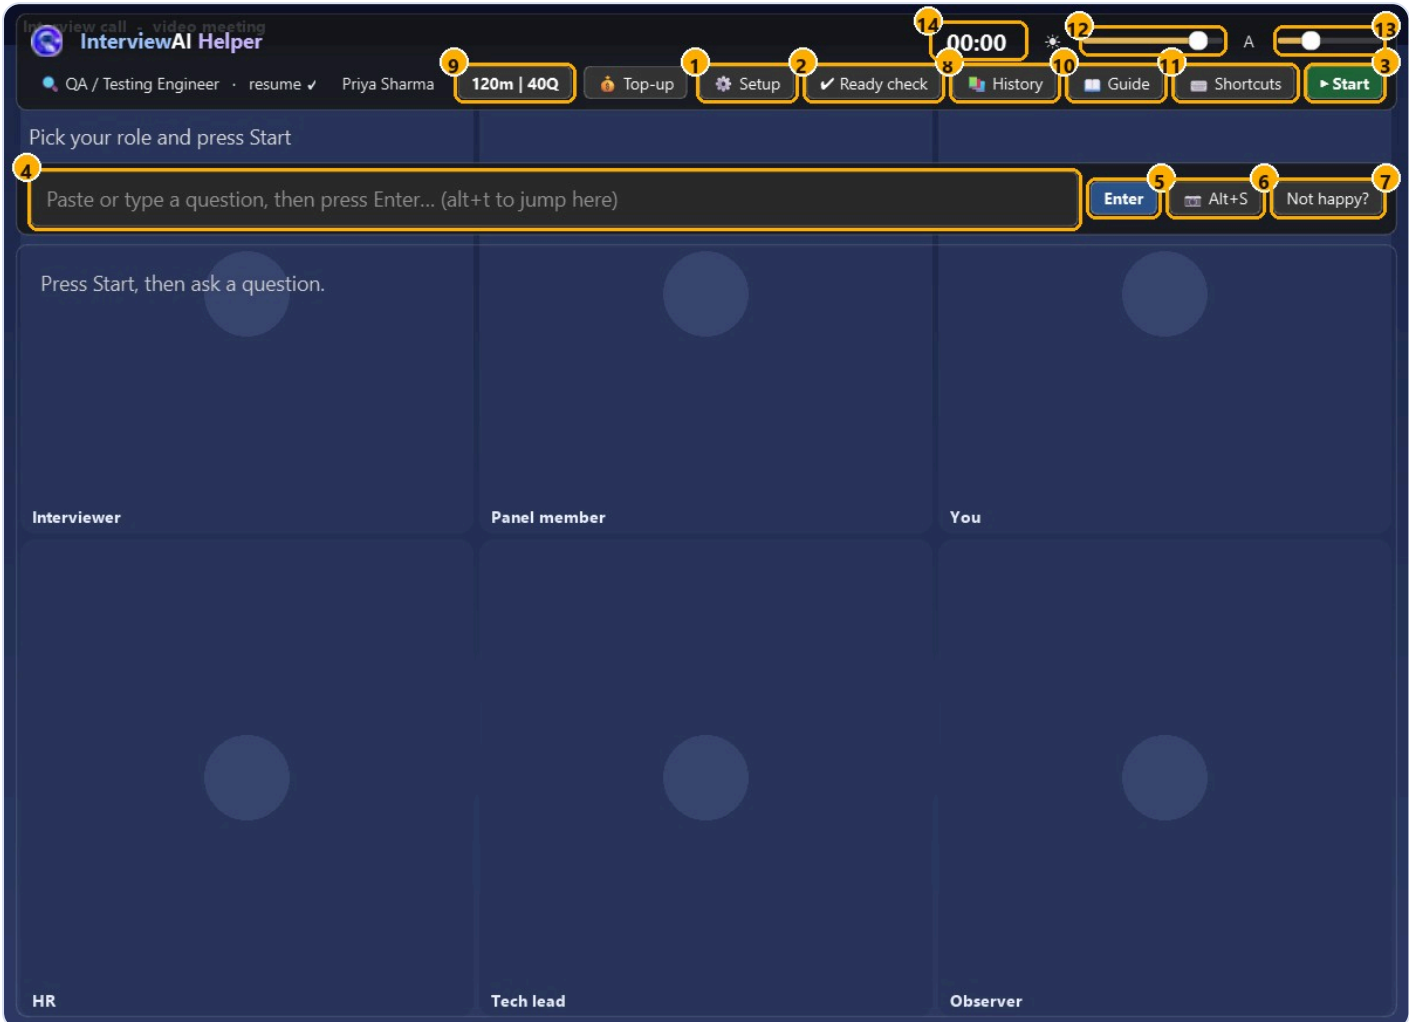

Press Start when the interview begins. The app listens to the interviewer through your speakers, never your microphone.

WHAT IT IS

A map of every control in the window.

WHY WE DO IT

Know where each button is before you need it, so you can act in a second during the interview.

1 Setup

2 Ready check

3 Start / Stop

4 Question box

5 Enter

6 Alt+S: read screen

7 Not happy?

8 History

9 Balance and Top-up

10 Guide (replay tour)

11 Shortcuts

12 Brightness

13 Text size

14 Timer

10 Ask a question: 3 ways

APP

WHAT IT IS

Three ways to give the app a question.

WHY WE DO IT

You always have one that works: **voice** when it can hear the interviewer, **typing** when you want control, **Alt+S** for questions or code on your screen.

1 Just listen

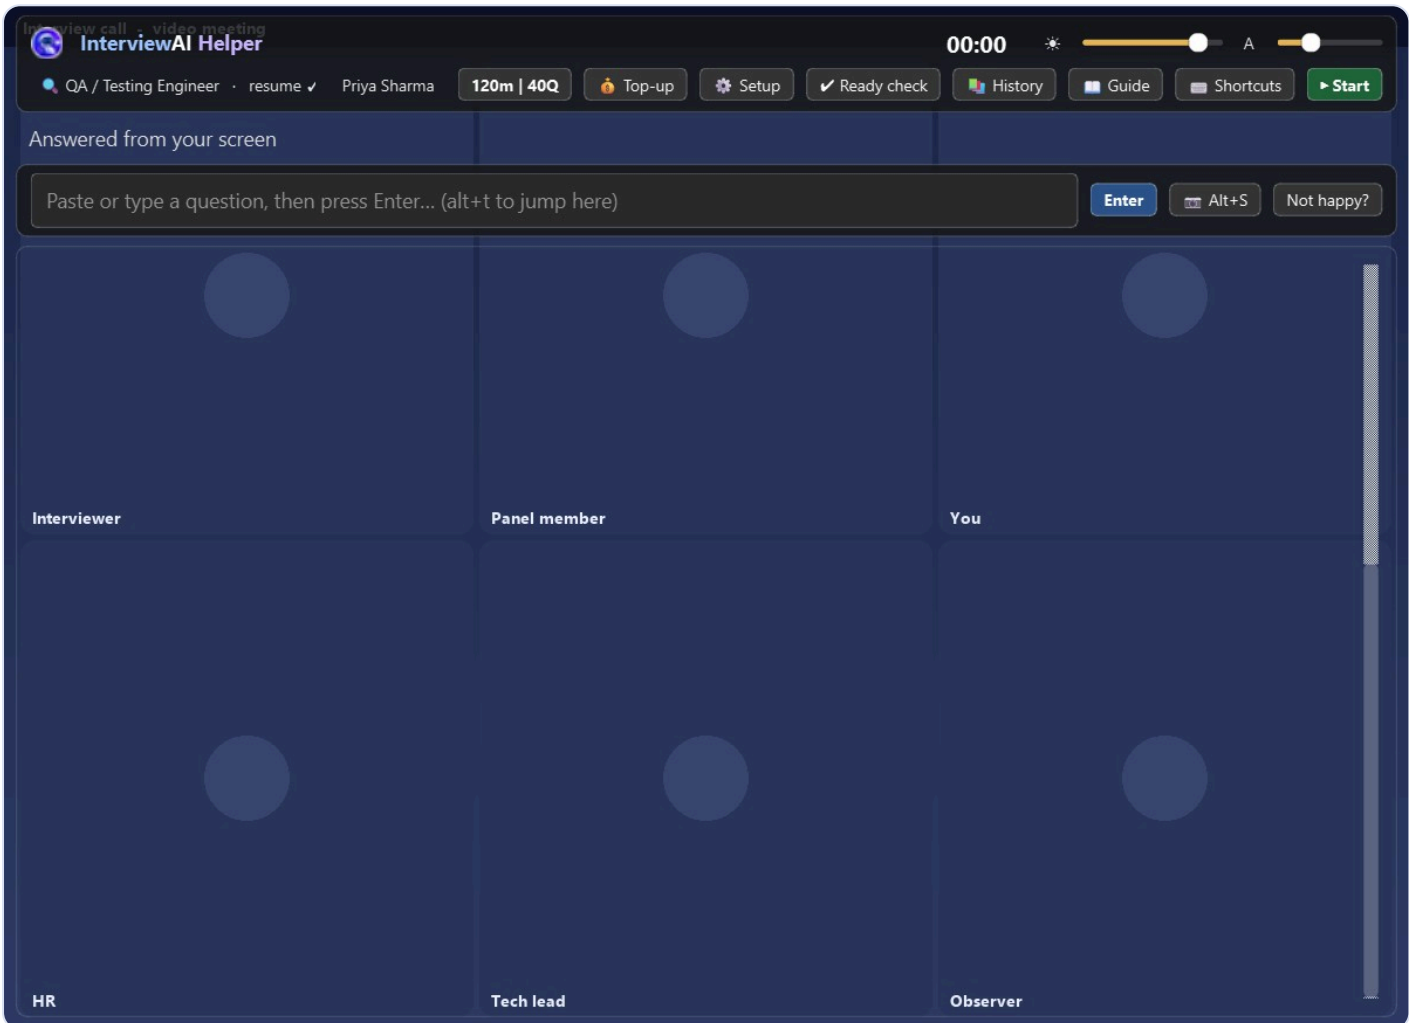

Press **Start**. When the interviewer finishes a question, the answer appears.

2 Type or paste

Press **Alt+T**, type the question, press **Enter**.

3 Read the screen

Press **Alt+S**. It reads the question off your screen, even code.

An answer after **Alt+S** : a short line, then the code

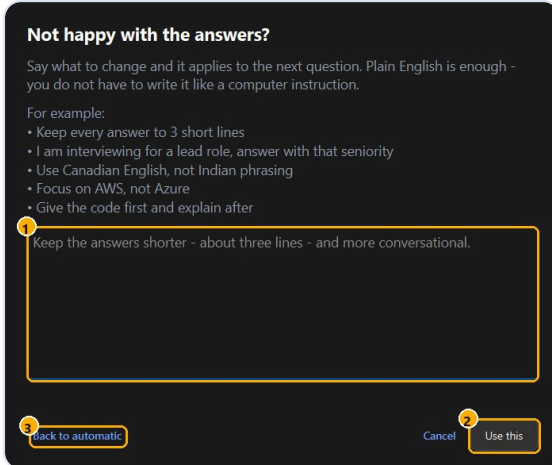

Long problem? Press **Alt+Shift+S** on each screen, then **Alt+Enter** to combine them. · **Two questions on screen?** It reads only the newest.

WHAT IT IS

Not happy? changes the style of answers. **History** and **Session notes** keep what happened.

WHY WE DO IT

Fix an answer in seconds, and revise from your own questions and answers after the interview.

1 Say what to change, in plain English

2 Press **Use this**: it applies to the next answer

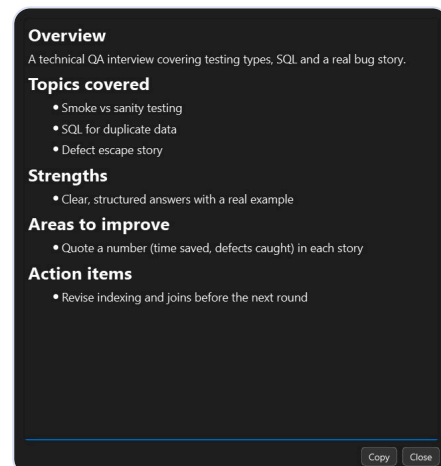

3 **Back to automatic** undoes it

1 **History** keeps every question and answer

2 Code is kept in its own block

AFTER YOU PRESS STOP

1 **Session notes**: topics, strengths, what to improve

12 Check your balance, add more

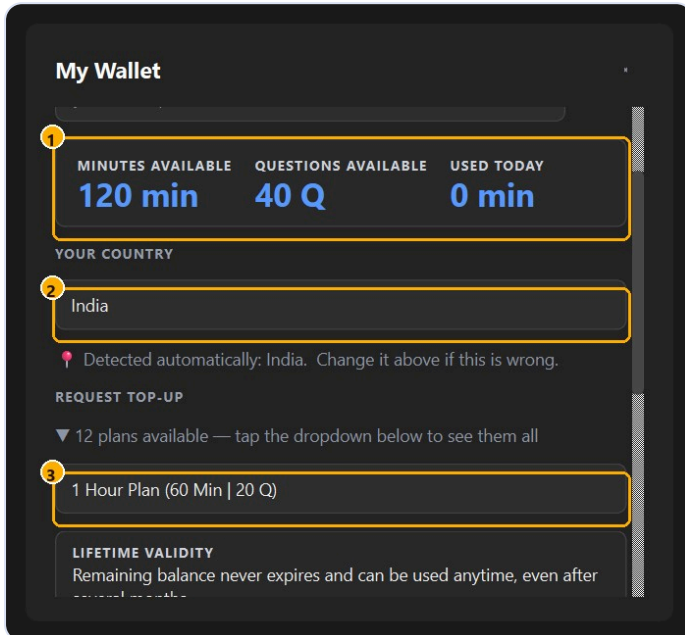

APP + WEBSITE

WHAT IT IS

Your balance of minutes and questions, and where you add more.

WHY WE DO IT

Check it before an important interview so you do not run out. Current prices are always on the website.

1 Your **minutes** and **questions** left

2 Your **country** decides the prices you see

3 Pick a plan, then **Request Top-up**

YOUR PLAN

Free trial

No expiry

Minutes **5 left**

Questions **5 left**

GET THE APP

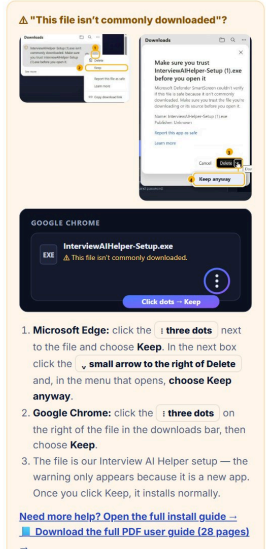

Download Installer

Download Portable ZIP

Windows 10 or 11. Open the app and sign in with this same mobile number and password.

SET UP IN 5 STEPS

- 1 **Download the installer.** Tap the blue button above and wait a few seconds for the file to finish.
- 2 **If the browser warns you, keep the file.** New apps often show a safety notice — it is safe to keep (see the box below).
- 3 **Run the file & install.** Open **InterviewAIHelper-Setup.exe** from your Downloads, click through the installer, and launch the app.
- 4 **Sign in in the app.** Use the **same mobile number and password** you just created here — your plan carries over automatically.
- 5 **Add your details & go.** Open **Setup**, paste your custom prompt, upload your resume and the job description, and you are ready for the live interview.

The same balance is on your account page

Pay by: UPI / QR, cards (Razorpay), or send a payment screenshot on WhatsApp.

Current prices and offers are always on interviewaihelper.com/pricing.html.

WHAT IT IS

Keyboard shortcuts for the actions you use most.

WHY WE DO IT

A key press is faster than hunting for a button on a live call. **Ctrl+Space** hides the app instantly.

Keyboard Shortcuts**ANSWERING QUESTIONS****Alt+S**

Read the question off your screen and answer it instantly.

Alt+Shift+S

Code or question too big for one screen? Queue a screenshot - scroll and repeat.

Alt+Enter

Combine every queued screenshot into one question and answer it.

Alt+T

Jump straight into the type/paste box from anywhere, ready to type.

Enter

In the type/paste box: submit the question.

WINDOW

Hide the app instantly - and press it

Keyboard Shortcuts**Alt+P**

Get out of the way of the question - looks at the screen, works out which side the question is on, and moves to the other half so you can read it and the answer side by side.

Alt+Left

Snap the window to the left half of the screen.

Alt+Right

Snap the window to the right half of the screen.

Alt+Down

Undo a snap - back to the size/position from before.

Ctrl+Alt+R

Reopen the app if it was closed (works for 30 minutes after each launch).

F1

Open this shortcuts guide.

Alt+S

Read the screen

Ctrl+Space

Hide / show the app

Alt+Down

Undo the snap

Ctrl+Up / Down

Earlier / later answer

Ctrl+Alt+R

Reopen the app

Alt+T

Jump to the question box

Alt+Left / Right

Snap to a side

Alt+P

Move away from the question

**Alt+Shift+S,
Alt+Enter**

Several screens, one question

F1

Show this list

14 Something wrong? Quick fixes

WHAT IT IS

The most common problems and the quickest fix for each.

WHY WE DO IT

Most issues are a warning or a setting. This page saves you waiting for support.

Problem	Do this
Browser won't keep the file	Three dots, Keep . Then the arrow right of Delete, Keep anyway .
"Windows protected your PC"	More info , then Run anyway .
File won't open	Right-click, Properties , tick Unblock , OK.
Antivirus removed it	Open its quarantine and Restore InterviewAIHelper.
Can't sign in	Mobile without country code. Reset the password on the website.
No answers appear	Press Ready check . Fix any red item.
It can't hear the interviewer	Set your speakers or headphones as the Windows default output.
Alt+S shows a warning	Your meeting tool blocks capture. Type or paste the question.
Prices in dollars	Top-up, set Your country to India.
Balance not updated	Click the balance. If you paid, WhatsApp us the screenshot.
